Medicare Guidelines – for your information

In order to obtain a rebate from Medicare for a specialist consultation you must have a current referral. Referrals issued by a GP or Optometrist are generally valid for 12 months. Referrals issued by a Specialist are valid for 3 months. If you do not have a valid referral your “non-referred attendance” will attract Medicare benefits as a “Standard Consultation”, which means that you will be required to pay a much larger “gap payment”. The onus is on the patient/parent/guardian to ensure your referral is kept current. If you require further information, please ask the Reception Staff.
